SUMMARY

Front-end developer with a passion for implementing effective solutions to complex problems. Currently seeking a position that will allow me to continue growing as a developer and deepen my technical skills while doing what I love. I enjoy creating user friendly applications in a challenging environment and learning about the latest technologies in order to explore new solutions to current problems.

EXPERIENCE

Web Developer WonderMakr

January 2021 - Present, Toronto, ON

- Ensure cross-browser, cross-platform, and multiple device type compatibility for all web solutions and perform any necessary QA on finished products.
- Build custom plugins as well as implement and maintain content management systems (primarily WordPress), including installation, configuration, and troubleshooting.
- Apply development expertise with custom post types, custom fields, plugins and themes for high-traffic Wordpress sites.

Web Developer AM Development

December 2018 - Present, Toronto, ON

- Predominantly use React & Redux to develop front-end services with other developers in conjunction with graphic designers to create clean and simple interfaces.
- Collaborate with UI/UX Designers to assess and meet the requirements and needs of the client based on their specifications.
- For certain websites ensured web content is WCAG(2.0) AA compliant and if not provide remediation strategy.
- Build responsive and modern sites with a mobile-first approach while going through the software development life cycle process.
- Increase web traffic by improving navigation, dynamic media sections and adding social media plugins.

Web Developer Planned Parenthood

December 2018 - September 2019, Toronto, ON

- Engaged in discovery sessions regarding design and architectural details with client to ensure the website met their standards as well as the needs of their customers while maintaining feel and brand awareness.
- Translated design team's UI/UX wireframes and mockups into responsive, interactive features using PHP, SASS, Gulp, Wordpress and JavaScript.
- Created custom plugins, templates and functions for this WordPress based website.
- Revamped and optimized Planned Parenthood's existing website to be more user friendly with a fresh, simplistic and modern look.
- Implemented seamless handoff by providing detailed technical software documentation to the client upon completion of project.

Infantryman CAF Reserves

November 2018 - Present, Toronto, ON

- Trained to lead, inspire and perform in extreme conditions by performing drills that required constant teamwork in the field.
- Taught to perform well under pressure and construct educated decisions in a timely manner by training in harsh and unforgiving terrain during large scale drills in the field with over 100 people.
- Deeply ingrained discipline and teamwork skills.
